INSURANCE BENEFITS AVAILABLE TO RETIREES

Eligible participants and their eligible dependents are offered medical and life insurance through their sponsoring employer. **Retiree medical plan provisions and contribution requirements are subject to change.** To qualify for this medical and/or life insurance coverage, an individual must:

- Be at least age 55 as of the last day of work;
- Have at least 10 pension vesting years;
- Be enrolled, or eligible to enroll under a HEWT-sponsored plan
- Pay the required contributions for the elected coverage.

A RETIREMENT ELIGIBLE PARTICIPANT HAS THE FOLLOWING OPTIONS IN ELECTING MEDICAL COVERAGE:

(1) **Enrollment**

-May drop in the future, with rights of one time re-enrollment.

(2) **Deferral, With Option to Enroll in Future**

-Within 31 days of a Life Event, effective the first of the following month.

-Any open enrollment, effective January 1, of the following calendar year.

-It is the participant's responsibility to contact the HEWT for re-enrollment.

NOTE TO CURRENT RETIREES REQUESTING TO DEFER COVERAGE: Requests will be effective the first of the month following receipt of your forms. If your forms are received after the 10th of the month, it may not be possible to stop the deduction of any applicable medical premiums from the following month's annuity payment due to the processing time needed for monthly annuity distributions. In these cases, you will be reimbursed after the fact. Please note that reimbursement is not immediate and could take up to four weeks to process. **To avoid this inconvenience, it is recommended that your request be received by the 10th of the month.**

EXAMPLE OF DEFERRING MEDICAL COVERAGE:

John and Jane are a married couple. John is 60 yrs old, and has worked at Hanford for 35 years. John decides to "hang up the gloves" and retire. One year after retiring, John suggests to Jane that maybe she should go out and get a job so that it will be easier for him to complete his list of chores around the house. Jane decides to get a job at a local department store, where she realizes that she can enroll in benefits and can cover John too. Both John and Jane decide that since their new coverage provided by the dept store is better than their coverage through Hanford, that they would like to Defer coverage, which they do by contacting a Benefits Specialist. Five years later, Jane decides that she is going to stop working for the department store, resulting in a loss of medical insurance for both John and Jane. They decide to re-enroll in Hanford retiree medical insurance. **If John and Jane drop coverage again in the future, they cannot re-enroll because they have already exhausted their one-time option to opt out of the plan with rights of re-enrollment.**
